

Dr. Narayan, PhD, Professor Radiation Physics Division and Chief Proton Center, MD Anderson Cancer Center, Texas, USA visited Department of Radiotherapy on 10 Dec 2019. He interacted with the department faculty, residents, staff and students. He went through various treatment facilities available in the department and delivered a talk on "Experience on Proton Treatment". At the end he expressed his happiness with the way the department evolved and protocols established. He also expressed his desire to mentor the physics section in future.
